# STIG

SCIENCE, TECHNOLOGY,  
AND INNOVATION GOVERNANCE

# Our goal

# STIG Graduate Education Program

## Study science and technology policy

- Various courses are prepared to study STI policy design and research
- Provide opportunities for taking courses of different departments within the Univ of Tokyo

## Interdisciplinary collaboration

- Core Curriculum: Interdisciplinary group exercise in policy study
  - Summer camp: 3 days intensive WG, collaborating with other universities and government offices\*
  - Seminars, inviting guest lectures from government officers or academia
- Explore the opportunities!!!

\*This year, we will provide "1 day ONLINE summer seminar" due to the COVID-19.

# Structres of Education Program

## Required class

Group exercise in STI policy study  
Learning methodologies to integrate  
diversified disciplines and knowledge

## Required electives

(a): Policy Processes and Institutions

- ・医療イノベーション政策
- ・Case Study(Project Based Learning on the Technological Innovation and the Social Solutions)
- ・事例研究・人工知能と社会
- ・Social Design and Global Leadership

# SciREX Summer Camp\*

- SciREX organized collaborative program
- Provide students (around 10 from Univ. Tokyo) to join
- Group discussions and collaborations with faculties and students from GRIPs, Hitotsubashi, Kyoto, Kyushu, and Osaka, and with government officers from MEXT
- Past topics are...
  - STI and Reconstruction from Tohoku Earthquake (2016; Matsushima, Tohoku)
  - Issues for the future Japan (2017; Roppongi)
  - Science & Technology Policies in 2030 (2018; Roppongi)
  - STI Policy to Challenge (2019; Roppongi)

# SciREX Summer Camp\*

**STIG**

SCIENCE, TECHNOLOGY,  
AND INNOVATION GOVERNANCE

\*This year, we will provide "1 day ONLINE summer seminar" due to the COVID-19. 8

# PoP(Policy Platform) seminar

**63rd STIG PoP seminar/WS**  
**16 March 2018**

**Shih-Ming Kao, Assistant Professor,  
National Sun Yat-sen University,  
Institute of Marine Affairs, "Co-  
existence of offshore wind energy and  
local fisheries in Japan and Taiwan"**

**80<sup>th</sup> STIG PoP seminar**  
**8 August 2019**

**Sotaro Shibayama, Senior Lecturer,  
Sten K. Johnson Centre for  
Entrepreneurship, Lund University  
"University System Design to support  
Scientific Research: A Study on the  
Dynamics of Innovative Knowledge  
Production"**

# Departments of STIG enrolled students

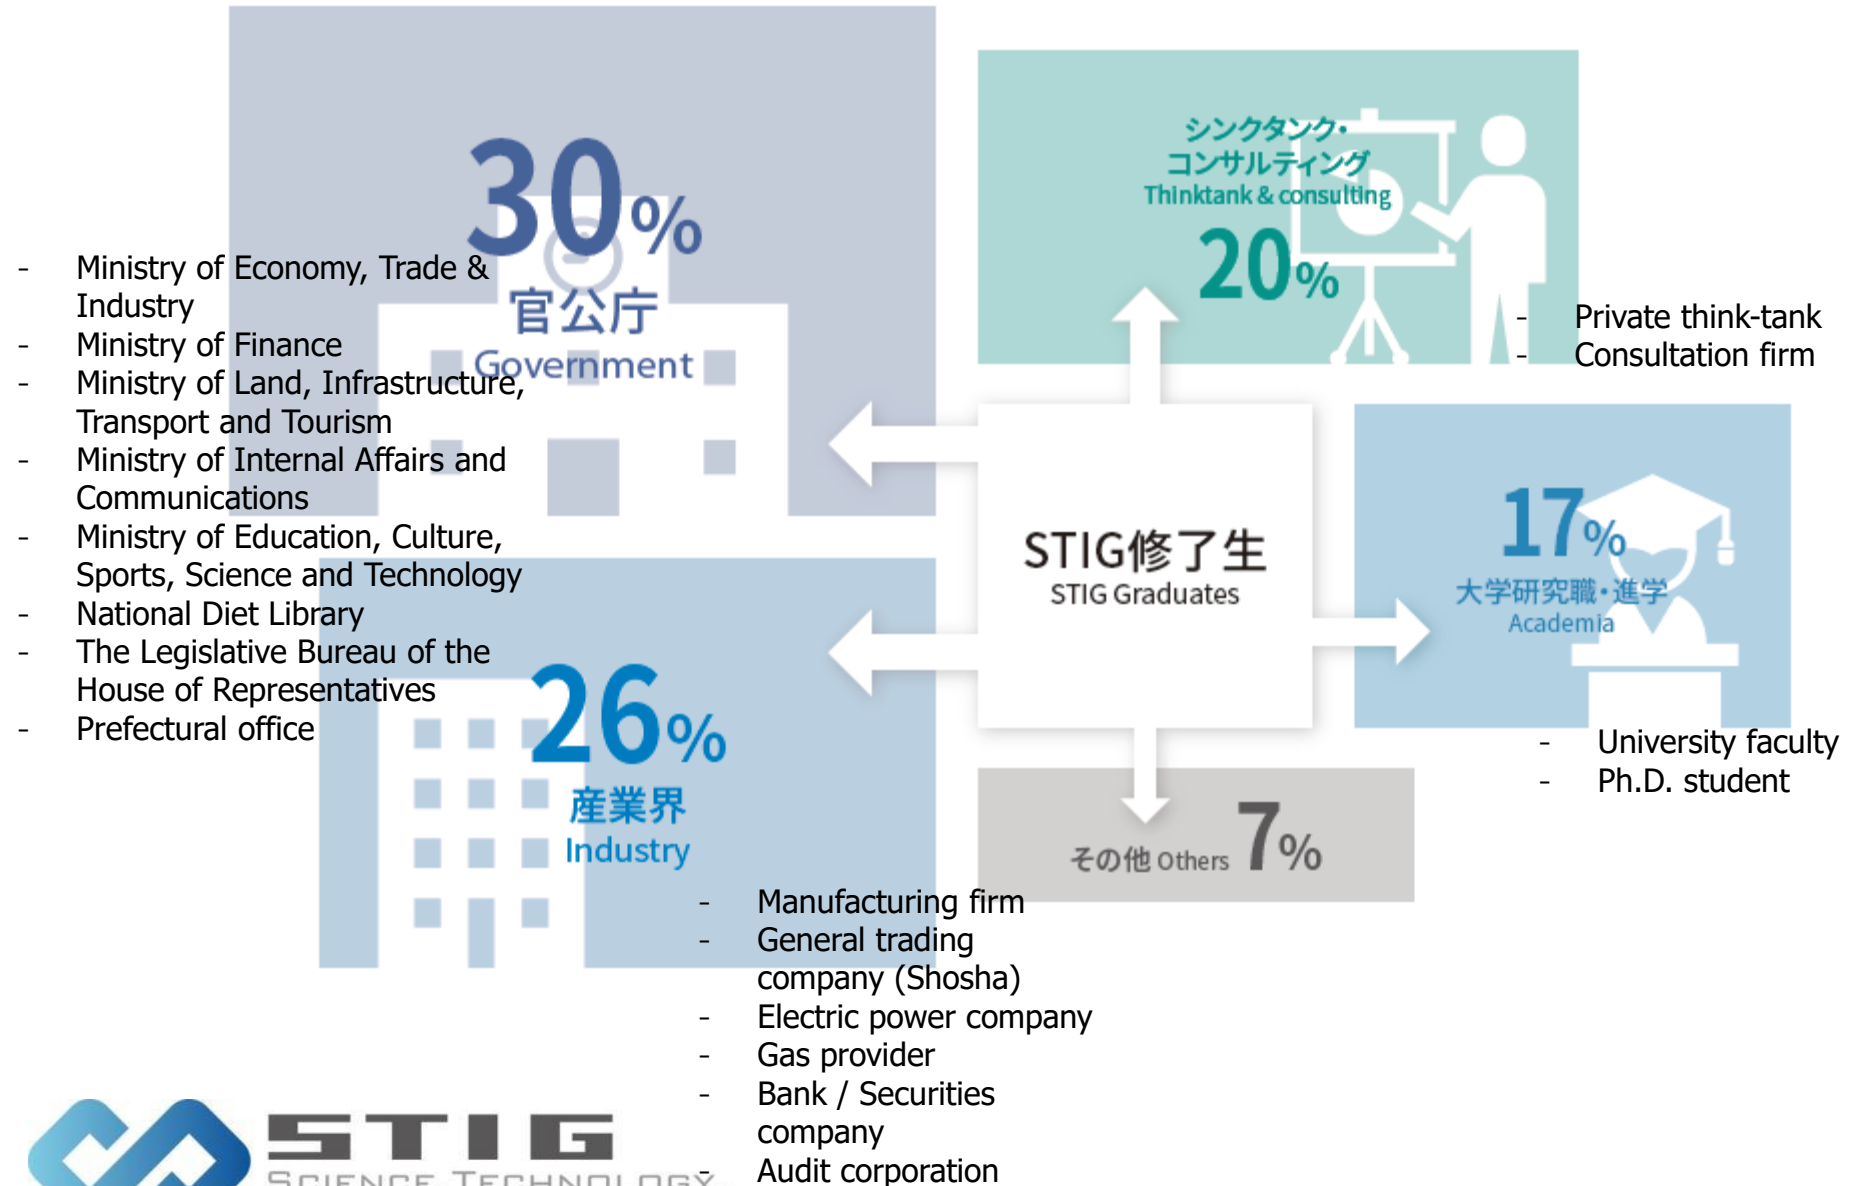

(2019年12月現在) as of December, 2019

# Graduates from STIG Education Program

90 graduates received certifications in between FY 2013 and 2019

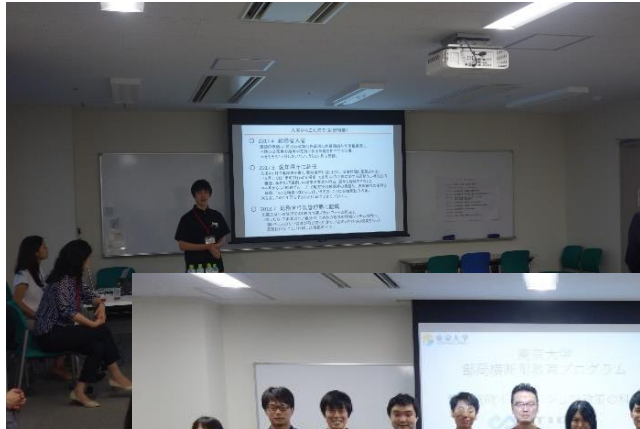

# Career Paths of STIG Graduates

# Networking with STIG Alumni

Exchanging views with STIG Alumni, STIG faculties and STIG students.

◆Date 6<sup>th</sup> July (sat) 17:00–19:00

◆Place: IAR 1222E, the University of Tokyo

5 Alumni shared their experience.  
25 participants.

# Your benefits of joining STIG education program

Various agencies are in charge of STI policies in Japan

# Your benefits of joining STIG education program

## For those who seek a government job

- Learn fundamentals of policy design
  - Especially, methodologies of evidenced based policy design
- For the students with natural science backgrounds: Provide opportunities to cultivate a mindset of the social science through group work exercises and teaching by our educational staff, who have social science based expertise
- For the students with social science backgrounds: Provide opportunities to create social network with STI policy practitioners & researchers

# Your benefits of joining STIG education program

For those who seek an opportunity in the industry

- learn the importance of social acceptance, the relationship between science technology and society, when introducing technology into society
- Learn a design process of evidence-based R&D strategy
- Develop a policy proposal skill
  - Industry associations and individual firms actively lobby to the public sector through their government relations sections
  - An innovative business needs adequate lobbying

# FAQ (1)

Q.Are there any requirements for registration? Also, are there examinations, interviews or other selection procedures?

A. No. The course can be taken by any University of Tokyo graduate student. **There are no particular requirements and fees.** Also, there are no examinations or interviews when registering.

Q.I am interested in the STIG education program, but is it possible to take just certain courses?

A. Students are welcome to take individual courses, without planning to complete the program.

# FAQ (2)

Q. If I register for the STIG education program from now, can the credits I earned during the previous year (my first year of graduate school) be used to satisfy the STIG completion requirements?

A. **Partly yes. Please consult with the STIG education program administrative staff** regarding the credits you want to count from the previous year.

Q. How can I register to STIG program?

A. **You can register today.** Or submit the STIG Registration Form to the STIG Education Program Office. Please access the official site: <https://stig.pp.u-tokyo.ac.jp/en/>

# FAQ (3)

Q. If I register for the STIG education and meet the required credit, would I get certificate automatically?

A. **No. You need to apply for certification on UTAS.**  
**Reminding email will be sent but please do not forget to submit application.**

# Registration Form
